📍 43 Quang Dũng - Vĩnh Trung - Thanh Khe - Đà Nẵng

MY FAVOURITE

my hobbies: play foofball, swimming, listening to music anh watch a movie

SKILLS

- PHP Framework Laravel
- HTML
- CSS
- JavaScript
- C#
- Java
- C++

PROFESSIONAL PROFILE

 - I am a 4th year student majoring in software engineering at Duy Tan University. Learn the basics of Java, C#, C, C++ languages. And learn about PHP Laravel framework combined with Bootstrap Html, Css, Javascript to create a few small projects learned at school. Therefore, I feel more confident with the PHP language after learning and implementing it through projects at school.

 - Accumulate the necessary soft skills in building relationships, solving problems and working through teamwork Many part-time jobs such as data entry clerk, waiter...

 - I want to apply for an intern position at the company to gain experience from people with high expertise in the profession, and want to work on real projects. to have more experience for myself

HARD SKILLS

Advantages: Master basic knowledge, quick learning and good logical thinking ability
Disadvantages: still limited in many aspects when studying at school

SOFT SKILLS

Advantages: good teamwork, high problem-solving ability, good listening, self-discipline, responsibility, diligence.
Disadvantages: Communication is still a bit limited and shy, Limited foreign language

EXTRACURRICULAR ACTIVITIES

Volunteers support highland children, participate in blood donation, and work with Vinh Trung ward to clean up trash on the banks of Ham Nghi lake...
